THE SENATE
CANADA

Chancellor's Message

My first words are an acknowledgment and an appreciation of the honour you have bestowed on me by asking me to be your first Chancellor. To be Chancellor of a young, new university with the future so promising is not only exciting but also inspiring. Higher education becomes more important in the lives of each of us with every day. Some of the studies seem unnecessary to many, but it must not be forgotten that to learn, to think, to remember, and to concentrate is the purpose of a college education. To attain these qualities, the brain must be trained like an athlete, but a person must also remember that this training must be accompanied by heart and kindness and consideration for others. No one can achieve greatness without friends.

This University is located in the heart of Canada's most promising mineral development so that it is appropriate that Science and Technology should complement the study of the Arts. A great future is ahead for Canada and students must always bear in mind there is lots of room at the top.

My best wishes to all of you.

N. M. Paterson.

Principal's Message

TO THE GRADUATES:

Within a few weeks an Act will be submitted to the Legislature of the Province of Ontario to change the name of Lakehead College of Arts, Science and Technology to Lakehead University. In May, degrees in Arts and Science will be granted by this University for the first time. They will be granted by our first Chancellor, the Honourable Norman Paterson, LL. D., K. G., St. J. under the authority of our first Senate. As one of many who have worked hard to achieve this goal, I deem it a distinct honour to bring greetings and very sincere best wishes to the members of this first graduating class.

Lakehead University will retain the motto adopted by Lakehead College: "Ad augusta per angusta". This motto is the password used by the conspirators in the opera ERNANI by Verdi which he derived from the drama by Victor Hugo. The translation is "Only by going through difficulties may you reach the highest things". You are going into a world which is certainly not lacking in "difficulties", but, at the same time, the opportunities to achieve "higher things" have never been greater.

Many of the "difficulties" as well as the opportunities for "higher things" will stem from the rapid introduction of increased automation in the next few years. It will not only affect the way people work, but it will also bring with it a new philosophy - a philosophy adjusted to a life of less work and more leisure to enjoy the arts and graces that a wholesome life can provide. Whether or not we achieve the higher things in life will depend largely upon the soundness of our system of education.

No college or university can give you an education. Becoming educated does to follow inevitably from anything done by anyone else. Theodore Roosevelt once remarked "What I am to be, I am now becoming". What you derived from Lakehead University was determined by many things - the way you studied, the way you participated in other activities, the way you responded to your colleagues - in brief, the way you lived each day. Obviously, this will not change when you receive your degree or diploma because it is a continuing process.

As members of the first graduating class of Lakehead University, many eyes will give you close scrutiny. I am sure that I speak for the entire Faculty when I say that I have the highest confidence in you.

We wish you well.

President's Message

"Aspiration is the seed of growth. It is not enough to have lofty ambitions and ideals, if we do nothing about them. They must be put in practice or they will not contribute to growth."

These words by the Canadian poet, Bliss Carman, are of special significance to us at Lakehead University, for the aspirations of a young college have been realized and an expanding university established. We, as students, have been intimately involved in this exciting process of growth - a process which has created in each of us an intense pride for our Alma Mater and a growing dedication to the motto "Ad augusta per angusta".

Another successful year has been enjoyed by the Lakehead S. C. M. The noon-hour lecture series consisted of five sets of lectures organized to consider specific topics. These topics included "The Playboy Philosophy", "Man Against Mass Society", "Intelligent Christianity", "Political Perspectives", and "Communication". Three evening seminars were presented - "Rome and the Ecumenical Movement", "Crosscurrents in Psychology and Religion", and "Communism and the West". Each of these seminars provided an opportunity to consider a topic through two lectures, a panel discussion, and a question period. Five study and discussion groups on a variety of topics provided a chance for a small group of students to learn and to exchange ideas in weekly meetings.

The S. C. M. again sponsored the International Film Society as a service project. For the first time this effort provided a significant source of revenue for the group. Profits from the films were used to partially subsidize the cost of sending six delegates to the S. C. M. Western Regional Christmas Conference at U. B. C. As another service project, the group sponsored "Folk-Concert '64", with all proceeds going to Oxfam of Canada. The effort was an outstanding success as overflow audiences enjoyed the highly polished performances.

Finally, a Fall Camp in mid-October and a Spring Camp immediately after the final exams provided a real opportunity for group fellowship and discussion.

The Circle "K" Club has made a number of significant contributions to the university community during the present academic year. Circle "K" is an international service club sponsored by Kiwanis groups. The local chapter is the only group between Toronto and the West Coast and as such, our activities will become more and more significant as additional groups develop in this vast area. The club is open to any male student having a willingness to work.

Activities of the club have been quite varied as the following list indicates. The club has been responsible for the sale and distribution of the University jackets, sweat shirts, and Forestry sweaters; a Christmas show for the patients at St. Joseph's Hospital; ushering, parking, and coatroom attendants for various functions at the University Centre; sponsoring of the Hallowe'en Dance; the presentation of a University pennant to the visiting Kwansei Gakuin University of Japan as a gesture of international friendship; the presentation of a scholarship to be presented at Convocation exercises; organization and participation in many of the Winter Carnival activities including the Carnival King contest, Monte Carlo night, the pancake lunch, design and construction of much of the Ice Palace, as well as participation in many other stunts designed to promote the image of the University.

A delegation of members from the local group attended the convention in Toronto for Eastern Canada chapters. At that time liason was set up between the groups in the East and our own group in order to keep better posted on the activities at other universities.

The Lakehead University Circle "K" Club has enjoyed a most successful year, and it looks forward to continued growth and expansion with the advent of greater numbers of students and members.

World University Service began its 1964-65 program with an educational campaign in the fall. In October Mr. Gnarowski, Marlene Grand Maitre, and Susan Valley represented Lakehead University at the annual assembly in London, Ontario.

Treasure Van visited the Lakehead University campus on October 19th, 20th, and 21st and was a phenomenal success due to the efforts of Marlene Grand Maitre and her committee.

At a meeting of the selection board last spring, Tom Kelly of Arts II was chosen to represent Lakehead University at the Canadian Seminar in Chile in the summer of 1965.

In order to raise money to sponsor our delegate to Chile, W. U. S. C. undertook the sale of beer mugs and college toques as well as sponsoring Slave Day in conjunction with Nemissa. In the months of January and February, W. U. S. C. presented its second annual Film Festival.

It was the main aim of the 1964-65 executive to acquaint the students with the goals and work of W. U. S. C. and if this was achieved, our year was a success.

President's Message

At this time I would like to express my appreciation for the assistance which has been given me this year. This help has made possible the expanded athletic programme which the University has enjoyed over past years. Particular thanks should be extended to Mr. William Shannon for his timeless efforts in our behalf.

A well-rounded athletic programme is important for physical fitness of faculty, staff, and students alike. Equal attention should be given to keeping one's body physically fit as well as keeping one's mind mentally alert. These two aspects go hand-in-hand.

A notable addition to the athletic programme has been the appearance of the girls' basketball team, and particular congratulations should be extended to them for the fine showing which they made in the Thunder Bay Women's League as well as in their thrilling victory against Northwestern College in Minneapolis.

Further participation by all students should ensure a greatly expanded programme during future years as we look forward to the day when Lakehead University has its own gymnasium and field house.
